

FORTIGATE™ 50A/100

Real-time Network Protection for SOHO/Branch Office

FortiGate™ Antivirus Firewalls are dedicated, hardware-based units that deliver complete, real-time network protection services at the network edge. Based on Fortinet's revolutionary FortiASIC™ Content Processor chip, the FortiGate platforms are the only systems that can detect and eliminate viruses, worms, and other content-based threats without reducing network performance — even for real-time applications like Web browsing. FortiGate systems also include integrated firewall, content filtering, VPN, intrusion detection and prevention, and traffic shaping functions, making them the most cost effective, convenient, and powerful network protection solutions available.

Tailored for the needs of smaller offices, the FortiGate-50A and FortiGate-100 systems deliver the same enterprise class, network-based antivirus, content filtering, firewall, VPN, and network-based intrusion detection/prevention featured in all FortiGate models. Both the FortiGate-50A and FortiGate-100 support an unlimited number of users, and are ideally suited for small businesses, remote offices, retail stores, broadband telecommuter sites, and many other applications. The capabilities and speed of the FortiGate-50A are unmatched by comparable devices in its class. The FortiGate-100 includes all of the capabilities of the FortiGate-50A and adds a DMZ port, traffic shaping, and increased throughput. The FortiGate-50A and FortiGate-100 are kept up to date automatically by Fortinet's FortiProtect Network, which provides continuous updates that ensure protection against the latest viruses, worms, Trojans, intrusions and other threats — around the clock, and around the world.

Product Highlights

- Provides complete real-time network protection through a combination of network-based antivirus, web content filtering, firewall, VPN, and network-based intrusion detection and prevention
- Eliminates viruses and worms from email, file transfer, and real-time (Web) traffic without degrading network performance
- Easy to use and deploy — quick and easy configuration wizard walks administrators through initial setup with graphical user interface
- Reduces exposure to threats by detecting and preventing over 30 different intrusions, including DoS and DDoS attacks
- Boasts the best combination of price, performance, and value relative to all other products on the market
- Delivers superior performance and reliability from hardware accelerated, ASIC-based architecture
- Automatically downloads the latest virus and attack database and can accept instant “push” updates from the FortiProtect Network
- Manage thousands of FortiGate units through the FortiManager™ central management tool
- Underlying FortiOS™ operating system is ICSA-certified for Antivirus, Firewall, IPSec VPN, and Intrusion Detection
- Virus quarantine enables easy submission of attack sample to Fortinet Threat Response Team
- Web-based graphical user interface and content filtering supports multiple languages

FORTIGATE™ 50A/100

Key Features & Benefits

| Feature | Description | Benefit |
|--|--|--|
| Network-based Antivirus (ICSA Certified) | Detects and eliminates viruses and worms in real-time. Scans incoming and outgoing email attachments (SMTP, POP3, IMAP) and Web (HTTP) and file transfer (FTP) traffic — without degrading Web performance | Closes the vulnerability window by stopping viruses and worms before they enter the network |
| AV-VPN | Scans and eliminates viruses and worms found in encrypted VPN tunnels | Prevents infection by remote users and partners |
| Firewall (ICSA Certified) | Industry standard stateful inspection firewall | Certified protection, maximum performance and scalability |
| Web Content Filtering | Processes Web content to block inappropriate material and malicious scripts via URL blocking and keyword/phrase blocking | Assures improved productivity and regulatory compliance |
| VPN (ICSA Certified) | Industry standard PPTP, L2TP, and IPSec VPN support | Lower costs by using the public Internet for private site-to-site and remote access communications |
| Intrusion Detection (ICSA Certified) | Customizable database of over 1300 attack signatures | Addresses the growing threat from blended attacks |
| Intrusion Prevention | Active prevention of over 30 intrusions and attacks, including DoS and DDoS attacks, based on user-configurable thresholds. | Stops the most damaging attacks at the network edge |
| Remote Access | Supports secure remote access from any PC equipped with Fortinet Remote VPN Client | Low cost, anytime, anywhere access for mobile and remote workers and telecommuters |

System Specifications

FortiGate-50A

FortiGate-100

Specifications

FortiGate-50A FortiGate-100

Interfaces

| | | |
|-----------------------|---|---|
| 10/100 Ethernet Ports | 2 | 3 |
| DMZ port | | • |

System Performance

| | | |
|--------------------------------------|--------------|--------------|
| Concurrent sessions | 25,000 | 200,000 |
| New sessions/second | 1000 | 4,000 |
| Firewall throughput (Mbps) | 50 | 95 |
| 168-bit Triple-DES throughput (Mbps) | 10 | 25 |
| Users | Unrestricted | Unrestricted |
| Policies | 500 | 1000 |
| Schedules | 256 | 256 |

Antivirus, Worm Detection & Removal

| | | |
|---|---|---|
| Automatic virus database update from FortiProtect Network | • | • |
| Scans HTTP, SMTP, POP3, IMAP, and encrypted VPN Tunnels | • | • |
| Block by file size | • | • |

Firewall Modes and Features

| | | |
|---------------------------------|---|---|
| NAT, PAT, Transparent (bridge) | • | • |
| Routing mode (RIPv1, v2) | • | • |
| User Group-based authentication | • | • |
| H.323 NAT Traversal | • | • |
| WINS support | • | • |

VPN

| | | |
|---|----|----|
| PPTP, L2TP, and IPSec | • | • |
| Dedicated tunnels | 20 | 80 |
| Encryption (DES, 3DES, AES) | • | • |
| SHA-1 / MD5 authentication | • | • |
| Supports Fortinet Remote VPN Client | • | • |
| PPTP, L2TP, VPN client pass through | • | • |
| Hub and Spoke VPN support | • | • |
| IKE certificate authentication (X.509) | • | • |
| Manual key and Auto key IKE | • | • |
| IPSec NAT Traversal | • | • |
| Aggressive mode | • | • |
| Replay protection | • | • |
| Remote access VPN | • | • |
| Interoperability with major VPN vendors | • | • |

Content Filtering

| | | |
|---|----|----|
| URL block | • | • |
| Keyword/Phrase block | • | • |
| URL Exempt List | • | • |
| Content policy profiles | 32 | 32 |
| Block Java Applet, Cookies, Active X | • | • |
| Email filtering (keyword, blacklist, exempt list) | • | • |

Intrusion Detection and Prevention

| | | |
|---|---|---|
| Detection for over 1300 attacks | • | • |
| Prevention for over 30 attacks | • | • |
| Detection and prevention on multiple interfaces | • | • |
| Customizable detection signature list | • | • |
| Automatic attack database update from FortiResponse Network | • | • |

Logging/Monitoring

| | | |
|---|---|---|
| Log to remote Syslog/WELF server | • | • |
| SNMP | • | • |
| Graphical real-time and historical monitoring | • | • |
| Email notification of viruses and attacks | • | • |
| VPN tunnel monitor | • | • |

Networking

| | | |
|---------------------------|---|---|
| Multiple WAN link support | | • |
| PPPoE client | • | • |
| DHCP client | • | • |
| DHCP server (Internal) | • | • |
| Policy-based routing | • | • |

System Management

| | | |
|----------------------------|---|---|
| Console interface (RS-232) | • | • |
| WebUI (HTTPS) | • | • |
| Multi-language support | • | • |
| Command line interface | • | • |
| Secure Command Shell (SSH) | • | • |
| FortiManager System | • | • |

Administration

| | | |
|---|---|---|
| Multiple administrators and user levels | • | • |
| Upgrades & changes via TFTP & WebUI | • | • |
| System software rollback | • | • |
| Trusted host enforcement (IP/mac binding) | • | • |

User Authentication

| | | |
|--|---|---|
| Internal database | • | • |
| LDAP support | • | • |
| RADIUS (external) database | • | • |
| IP/MAC address binding | • | • |
| Xauth over RADIUS support for IPSec VPN authentication | • | • |

Traffic Management

| | | |
|----------------------|---|---|
| Guaranteed bandwidth | • | • |
| Maximum bandwidth | • | • |
| Priority assignment | • | • |

Dimensions

| | | |
|--------|------------------|------------------|
| Height | 1.38 inches | 1.75 inches |
| Width | 8.63 inches | 10.25 inches |
| Length | 6.13 inches | 6.13 inches |
| Weight | 1.5 lb (0.68 kg) | 1.75 lb (0.8 kg) |

Power

| | | |
|------------------|-----|-----|
| DC input voltage | 12V | 12V |
| DC input current | 3A | 5A |

Environmental

| | | |
|-----------------------|---------------------------------|---------------------------------|
| Operating Temperature | 32 to 104 °F (0 to 40 °C) | 32 to 104 °F (0 to 40 °C) |
| Storage Temperature | -13 to 158 °F (-25 to 70 °C) | -13 to 158 °F (-25 to 70 °C) |
| Humidity | 5 to 95% non-condensing | 5 to 95% non-condensing |

Compliance & Certifications

| | | |
|--------------------------|---|---|
| FCC Class A Part 15 | • | • |
| CSA/CUS | • | • |
| CE | • | • |
| ICSA Antivirus | • | • |
| ICSA Firewall | • | • |
| ICSA IPSec | • | • |
| ICSA Intrusion Detection | • | • |
